## TEXTBOOK

*ed. by Yu.A. Medvedev*

*Рекомендовано Координационным советом по области образования  
«Здравоохранение и медицинские науки» в качестве учебника  
для использования в образовательных учреждениях,  
реализующих основные профессиональные образовательные  
программы высшего образования уровня специалитета  
по направлению подготовки 31.05.01 «Лечебное дело»*

Medical Informational Agency  
Moscow  
2019

UDC 616.31(075.8)

Получена положительная рецензия Экспертной комиссии по работе с учебными изданиями ФГАОУ ВО Первый МГМУ имени И.М. Сеченова Министерства здравоохранения Российской Федерации (Сеченовский Университет) № 548 ЭКУ от 20 декабря 2018 г.

**Medvedev, Yu.A.**

Dentistry : Textbook / Yu.A. Medvedev, E.M. Basin, D.Yu. Milyukova, K.A. Polyakov et al. ; ed. by Yu.A. Medvedev. — Moscow : Medical Informational Agency, 2019. — 384 p.

ISBN 978-5-9986-0391-4

The textbook covers the main issues of dentistry: anatomical and physiological characteristics and diseases of the maxillo-facial area, methods of anesthesia for surgeries, recommendations on prevention and treatment are provided. The textbook is supplemented with new information on modern methods of diagnosis, treatment and prevention of the maxillo-facial area diseases, additional illustrations are included.

The edition was prepared by the staff of the Department for Maxillofacial Surgery of the I.M. Sechenov First Moscow State Medical University on the basis of years of experience in teaching the course of dentistry according to the requirements of federal state standards of higher professional education in such specialties as “General Medicine”, “Medical and Preventive Care”, “Pediatrics”. It is recommended by the State-Funded Institution of Higher Professional Education “Russian Medical Academy of Postgraduate Education” of the Ministry of Health of Russia as a textbook.

Intended for students of medical schools and practicing doctors.

|--|-----------|
| List of abbreviations .....  | 10        |
| <b>Chapter 1. Anatomical and physiological characteristics of the maxillo-facial area. Dentofacial system.....</b> | <b>11</b> |
| 1.1. Structure of the maxilla and mandible.....  | 11        |
| 1.2. Masticatory and mimic muscles of the maxillo-facial area .....  | 14        |
| 1.3. Blood supply .....  | 16        |
| 1.4. Innervation.....  | 20        |
| 1.5. Lymphatic system.....   | 25        |
| 1.6. Structure of the oral cavity.....   | 26        |
| 1.7. General information on the eruption, anatomy and histology of the teeth .....                                 | 27        |
| 1.8. Functions of the dentofacial system and organs of the oral cavity .....                                       | 32        |
| <b>Chapter 2. Dental patient examination methods.....</b>  | <b>35</b> |
| 2.1. Basic examination methods .....   | 36        |
| 2.1.1. Survey.....   | 36        |
| 2.1.2. Visual examination.....   | 37        |
| 2.1.3. Palpation.....  | 37        |
| 2.1.4. Oral cavity and teeth examination .....   | 38        |
| 2.2. Secondary methods of examination .....  | 45        |
| 2.2.1. X-ray diagnostic techniques .....   | 45        |
| 2.2.2. Ultrasound investigation .....  | 50        |
| 2.2.3. Electroodontodiagnosis.....   | 50        |
| 2.2.4. Impedancemetry .....  | 51        |

|   |            |
|---|------------|
| 2.2.5. Vital staining.....                              | 52         |
| 2.2.6. Transillumination method.....                    | 52         |
| 2.2.7. Fluorescent diagnostics.....                     | 52         |
| 2.2.8. Antibiotic sensitivity test.....                 | 53         |
| 2.2.9. Cytological examination.....                     | 53         |
| 2.2.10. Histologic examination.....                     | 53         |
| 2.2.11. Laser Doppler Flowmetry.....                    | 54         |
| 2.2.12. Electromyography.....                           | 54         |
| <b>Chapter 3. Anesthesia in dental practice.....</b>    | <b>56</b>  |
| 3.1. Local anesthesia in the maxillo-facial area.....   | 57         |
| 3.1.1. Non-injection anesthesia methods.....            | 61         |
| 3.1.2. Injection anesthesia methods.....                | 63         |
| 3.1.3. Premedication before the local anesthesia.....   | 69         |
| 3.2. General anesthesia in maxillofacial surgery.....   | 69         |
| <b>Chapter 4. Dental and periodontium diseases.....</b> | <b>85</b>  |
| 4.1. Caries.....  | 86         |
| 4.1.1. Caries in stain stage.....                       | 89         |
| 4.1.2. Surface caries.....                              | 90         |
| 4.1.3. Medium caries.....                               | 91         |
| 4.1.4. Deep caries.....                                 | 93         |
| 4.1.5. Caries prevention.....                           | 94         |
| 4.2. Pulpitis.....                                      | 95         |
| 4.2.1. Acute pulpitis.....                              | 96         |
| 4.2.2. Chronic pulpitis.....                            | 100        |
| 4.3. Periodontitis.....                                 | 101        |
| 4.3.1. Acute periodontitis.....                         | 102        |
| 4.3.2. Chronic periodontitis.....                       | 104        |
| 4.4. Noncarious dental lesions.....                     | 110        |
| 4.4.1. Enamel hypoplasia.....                           | 111        |
| 4.4.2. Fluorosis.....                                   | 111        |
| 4.4.3. Wedge-shaped defect.....                         | 112        |
| 4.4.4. Excessive dental abrasion.....                   | 113        |
| 4.4.5. Enamel hyperesthesia.....                        | 113        |
| 4.5. Periodontitis.....                                 | 114        |
| 4.6. Chronic focal infection of the oral cavity.....    | 119        |
| <b>Chapter 5. Oral mucous membrane diseases.....</b>    | <b>122</b> |
| 5.1. Traumatic mucosal lesions.....                     | 123        |
| 5.1.1. Mechanical trauma.....                           | 123        |
| 5.1.2. Leukoplakia.....                                 | 124        |

|  |            |
|--|------------|
| 5.2. Changes in oral mucous membrane caused by infectious diseases.....                                  | 126        |
| 5.2.1. Oral mucous membrane lesions caused by syphilis.....  | 126        |
| 5.3. Changes in oral mucous membrane caused by allergic diseases .....                                   | 127        |
| 5.3.1. Catarrhal stomatitis.....   | 127        |
| 5.3.2. Aphthous stomatitis.....  | 128        |
| 5.3.3. Ulcerative stomatitis .....   | 130        |
| 5.3.4. Herpes iris.....  | 132        |
| 5.4. Changes in oral mucous membrane caused by exogenous<br>intoxication.....                            | 133        |
| 5.5. Changes in the oral mucous membrane caused by some systemic<br>diseases and metabolic diseases..... | 133        |
| 5.6. Changes in the oral mucous membrane caused by dermatosis.....                                       | 136        |
| 5.6.1. Vesicular disease .....   | 136        |
| 5.6.2. Lichen acuminatus.....  | 137        |
| 5.7. Anomalies and independent tongue diseases.....  | 138        |
| 5.8. Independent cheilitis.....  | 139        |
| 5.8.1. Exfoliative cheilitis.....  | 139        |
| 5.8.2. Cheilitis glandularis .....   | 140        |
| 5.8.3. Actinic and meteorological cheilitis.....   | 141        |
| 5.9. Precancerous condition and tumors .....   | 141        |
| <b>Chapter 6. Lesions of the maxillofacial area caused by connective<br/>    tissue diseases.....</b>    | <b>143</b> |
| <b>Chapter 7. The fifth cranial nerve disease .....</b>  | <b>149</b> |
| 7.1. Trigeminal neuralgia.....   | 150        |
| 7.2. Glossopharyngeal neuralgia.....   | 153        |
| 7.3. Superior laryngeal nerve neuralgia .....  | 154        |
| 7.4. Intermediate nerve neuralgia .....  | 154        |
| 7.5. Nasociliary nerve neuralgia (Charlin's neuralgia) .....   | 155        |
| <b>Chapter 8. Salivary gland diseases .....</b>  | <b>157</b> |
| 8.1. Epidemic parotitis.....   | 158        |
| 8.2. Acute bacterial sialoadenitis.....  | 159        |
| 8.3. Chronic nonspecific salivary gland inflammation.....  | 162        |
| 8.3.1. Chronic interstitial sialoadenitis.....   | 163        |
| 8.3.2. Chronic parenchymatous sialoadenitis.....   | 164        |
| 8.4. Chronic specific sialoadenitis.....   | 165        |
| 8.4.1. Tuberculosis.....   | 165        |
| 8.4.2. Actinomycosis.....  | 166        |
| 8.4.3. Syphilis .....  | 167        |
| 8.5. Calculous sialadenitis (sialolithiasis).....  | 167        |
| 8.6. Mikulicz syndrome – lymphomatosis and granulomatosis of the<br>salivary glands.....                 | 170        |

|  |     |
|--|-----|
| <b>Chapter 9. Tooth extraction</b> .....   | 173 |
| 9.1. Indications for tooth extraction .....  | 174 |
| 9.2. Contraindications for dental extraction .....   | 178 |
| 9.3. Operational features and dental extraction techniques.....                                      | 180 |
| 9.4. Complications during tooth extraction .....   | 190 |
| <br>   |     |
| <b>Chapter 10. Inflammatory diseases of the maxillofacial area<br/>and their complications</b> ..... | 201 |
| 10.1. Periostitis of the jaw .....   | 202 |
| 10.2. Osteomyelitis of the jaws .....  | 203 |
| 10.2.1. Acute osteomyelitis .....  | 205 |
| 10.2.2. Subacute osteomyelitis .....   | 206 |
| 10.2.3. Chronic osteomyelitis .....  | 207 |
| 10.3. Abscesses and phlegmons of the maxillofacial area .....  | 212 |
| 10.4. Furuncles and carbuncles of the maxillofacial area .....                                       | 220 |
| 10.5. Specific diseases of the maxillofacial area .....  | 224 |
| 10.5.1. Actinomycosis .....  | 224 |
| 10.5.2. Syphilis .....   | 226 |
| 10.5.3. HIV infection .....  | 227 |
| 10.6. Medication-associated osteonecrosis of the jaw .....   | 228 |
| 10.7. Face and neck lymphadenitis.....   | 233 |
| 10.7.1. Acute serous lymphadenitis .....   | 234 |
| 10.7.2. Acute purulent (abscessed) lymphadenitis.....  | 235 |
| 10.7.3. Phlegmonous adenitis.....  | 236 |
| 10.7.4. Chronic lymphadenitis (lymphatic gland inflammation).....                                    | 237 |
| 10.8. Complications of purulent-inflammatory diseases<br>of the maxillofacial area .....             | 238 |
| 10.8.1. Mediastinitis .....  | 238 |
| 10.8.2. Odontogenic meningitis and encephalopyosis.....  | 240 |
| 10.8.3. Facial veins thrombophlebitis .....  | 241 |
| 10.8.4. Cavernous sinus thrombosis .....   | 242 |
| 10.8.5. Sepsis.....  | 244 |
| <br>   |     |
| <b>Chapter 11. Maxillofacial area tumors</b> .....   | 247 |
| 11.1. Organo-specific benign tumors.....   | 248 |
| 11.1.1. Ameloblastoma .....  | 249 |
| 11.1.2. Odontoma.....  | 251 |
| 11.1.3. Epulis .....   | 252 |

| 11.2.2. Lymphangioma .....  | 258        |
| 11.2.3. Fibroma .....   | 259        |
| 11.2.4. Neurofibromatosis .....   | 259        |
| 11.2.5. Papilloma .....   | 261        |
| 11.2.6. Lipoma .....  | 262        |
| 11.2.7. Atheroma .....  | 262        |
| 11.2.8. Chondroma.....  | 263        |
| 11.2.9. Osteoma .....   | 263        |
| 11.2.10. Osteoclastoma (giant cell tumor).....                                  | 264        |
| 11.3. Cysts of soft and hard tissues of the maxillofacial area .....            | 266        |
| 11.3.1. Radicular cyst .....  | 266        |
| 11.3.2. Follicular cyst .....   | 267        |
| 11.3.3. Retention cyst.....   | 267        |
| 11.3.4. Dermoid cyst.....   | 267        |
| 11.3.5. Branchiogenous cyst .....   | 268        |
| 11.3.6. Median cervical hydrocele.....  | 269        |
| 11.4. Precancerous diseases of the maxillofacial area .....                     | 269        |
| 11.4.1. Leukokeratosis.....   | 273        |
| 11.4.2. Cutaneous horn ( <i>cornu cutaneum</i> ) .....                          | 274        |
| 11.4.3. Decubital ulcers .....  | 274        |
| 11.5. Oncological alertness.....  | 275        |
| 11.6. Malignant tumors of the maxillofacial area .....                          | 278        |
| 11.6.1. Labial tumor (clay pipe cancellation).....                              | 280        |
| 11.6.2. Lingual tumor (clay pipe cancellation).....                             | 282        |
| 11.6.3. Cancer of the oral mucosa.....  | 284        |
| 11.6.4. Adenocarcinoma.....   | 286        |
| 11.6.5. Sarcoma.....  | 288        |
| <b>Chapter 12. Maxillofacial area injuries .....</b>                            | <b>293</b> |
| 12.1. General information.....  | 293        |
| 12.2. Features of the maxillofacial area damage.....                            | 298        |
| 12.3. First aid in case of injury and damage of the maxillofacial<br>area ..... | 300        |
| 12.4. Transportation of patients with the maxillofacial area<br>damage.....     | 305        |
| 12.5. Primary surgical treatment of the maxillofacial area<br>wounds .....      | 306        |
| 12.6. Maxillofacial area wounds at the radioactive damage .....                 | 313        |
| 12.7. Local and general complications in maxillofacial wounds .....             | 314        |
| 12.8. Burn on the face .....  | 318        |
| 12.9. Non-ballistic fractures of facial bones .....                             | 321        |
| 12.9.1. Fractures of teeth and alveolar process.....                            | 321        |
| 12.9.2. Mandibular fractures .....  | 322        |

|  |     |
|--|-----|
| 12.9.3. Fractures of the maxilla.....                                | 332 |
| 12.9.4. Fractures of the zygomatic bone and the zygomatic arch ..... | 336 |
| 12.10. Principles of maxillofacial reconstructive.....               | 339 |
| 12.11. Care for patients with maxillofacial defects .....            | 345 |

**Chapter 13. Characteristics of dental and maxillofacial diseases and injuries in children .....**

|  |     |
|--|-----|
| 13.1. Prophylaxis of dental diseases in children.....                            | 350 |
| 13.2. Caries .....   | 352 |
| 13.3. Pulpitis.....  | 353 |
| 13.4. Periodontitis .....  | 355 |
| 13.5. Odontogenic periostitis of the jaws .....                                  | 357 |
| 13.6. Odontogenic osteomyelitis of the jaws .....                                | 358 |
| 13.7. Periodont diseases.....  | 359 |
| 13.8. Peculiarities of maximum-facial injuries in children .....                 | 361 |
| 13.8.1. Dislocation of teeth .....   | 362 |
| 13.8.2. Fractures of the teeth.....  | 363 |
| 13.8.3. Fractures of the alveolar process.....                                   | 364 |
| 13.8.4. Fractures of the lower jaw .....   | 365 |
| 13.8.5. Fractures of the upper jaw .....   | 367 |
| 13.8.6. Combined fractures of the upper and lower jaws .....                     | 368 |
| 13.9. Anomalies of development and deformation of the dentist-facial system..... | 368 |

**Chapter 14. Dentition pathology .....**

**Chapter 15. Congenital clefts of upper lip and palate.....**

|  |     |
|--|-----|
| 15.1. Upper lip clefts.....  | 378 |
| 15.2. Crossroads of the solid and soft cleft palate ( <i>palatum durum</i> ) ..... | 379 |
| 15.3. Terms of operational intervention .....                                      | 380 |
| 15.4. Principles of operational treatment at the clefts of upper lips .....        | 381 |
| 15.5. Operation of closing of the solid cleft palate – radical uranoplastic.....   | 382 |
